REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 16 are allowable over the prior art of record.

Independent claim 1 recites the limitations of: a check is made whether the camera is in working order by recording images regularly with and without a structure generated in the monitored region and by checking whether the structure information is found with a generated structure and is not found with no structure generated. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

Independent claim 16 recites the limitations of: one image is always recorded per shot with a generated structure and one with no structure generated, both in the recording of reference images and in the recording of actual images, and subsequently only the difference image from these two images is further processed. The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
